

Have you ever wondered why some patients cope with illness with a more positive attitude than others? The study carried out in this book offers insights through research on factors that contribute to better coping mechanisms among cancer patients. The study was conducted in Kenya, therefore the insights are culturally relevant for any professional counselor, psychologist or caregiver who intends to work with patients in oncological settings.

Studien zur Philosophie und Religion. Historische und politische Studien (German Edition), Sabbath in Puritan New England, The Kingdoms Of Life From A Theosophical Viewpoint, Oriental Rugs: The Illustrated World Buyers Guide, Chicken Parade, Russia, Political and Social Volume 2,
