

He has told me that he was Dionysos. When he said this I did not know what Dionysos was. I find myself losing myself into him, I obsess over him, I wait for him to return, and while he is with me I am enchanted in his spell. I feel him and I becoming wrapped together, and I crave for him to enter into my body and mind. It is a very sensual experience, the most beautiful connection between two souls. He calls it, feeling the power. The Alien contact continues. I get to know several Alien characters and more of the Agenda is revealed. These are the actual letters I wrote to SETI. This little book is a must-have for anyone interested in the UFO and Alien abduction phenomena. The book contains special lengthy conversations with the Aliens, many that took place while I was writing the letters. Get to know the Aliens and their work intimately in their own words. Featured: Zeta Greys, Reptilians, Dinosaurs, Hybrids, Orions. The book explains Reptilian dominance games, possession, sex with Reptilians. Aliens talk about their use of MKULTRA mind control as a plan to take over the Earth. Unique stories and more disturbing details than on the website. Find out how Reptilians feel about their scales. Reptilian talk about their food, and Orion man talks about Astronomy and his three home planets around the star Betelgeuse. Find out what goes on with the Japanese Dragon Dynasty men who call the Reptilians Dragons. Sad stories, fun stories, violence, romance, lust, and blood all contained in these 42 letters. As if from my journal entries a detailed account of when I had sex with the Illuminati hybrid, a very hot and toasty read. I saw his pale white back from closer and it really felt like a dead corpse. The last letter describes the romance that me and Dionysos the Red Reptilian had in our honeymoon period as we got to know one another. I can say I have had intense sexual pleasure with the reptilians she is my lover, and I love him. This book is for anyone who was ever fascinated with the Reptilians and Aliens and wants to know what they are doing here. Many aspects of who they are and what they do are explained also in their own words, perhaps more intimately than anywhere else. If his body enters into my body I will see his big red scaly paws with thick black claws. It is a quick firm roll, similar to like how a lizard snatches a prey and rolls over to entangle it. Or he will make me raise up on all fours, holding my body very still, while I hear his exhale and feel him all over. But don't worry, this is not violence, it is passionate. As a bonus, as I was inserting Dragon clip art pictures into the book Hamish the Red Reptilian started talking to the Dragon pictures as if they were real and could hear him. I added his comments into the book. If for no other reason then you need to get this book to see what Hamish says to the Dragon pictures. It is some of my favorite material that ever came out of The Orion Project! My Sock Turtle is cute as a button. 42 letters on 208 pages You can get this second book in the Letters series without having the first one. In spite of some sexual content this book should be suitable ages 16 and up. The Orion Project is a documentary and this is not fiction. I did not write those letters. I did not write them. - Hamish wants to add
